### Market Commentary

Indian benchmark equity indices staged a wonderful performance on the last day of the week by gaining close to half percent in the session and conquering their psychological levels. The indices ended at record highs on Friday, tracking upbeat trend in global markets, while hopes of good southwest monsoon rains also lifted sentiment. Market participants took some encouragement with the Moody's Investors Service stating that India's key reforms, including the impending goods and services tax and resolution of sticky loans may improve the country's credit profile. Some support also came with NITI Aayog Vice Chairman Arvind Panagariya's statement that India will regain the crown of the fastest growing major economy, overtaking China, as early as the first quarter of 2017-18. He said that India, on an annual basis, is ahead of China and will regain the growth momentum soon on the back of host of reforms initiated by the Modi government in the last three years. Besides, the appreciation in rupee value against the dollar added to the optimistic sentiments. Rising for the third straight day, Indian rupee strengthened by 14 paise to 64.34 against the US dollar in early trade on sustained selling of the American currency by banks and exporters.

On the global front, Asian equity markets ended higher on Friday, as a set of upbeat economic data from the US and Europe helped investors shrug off US President Donald Trump's decision to withdraw from the Paris climate agreement.
