#### Market Commentary

Indian equity bourses managed to settle with notable gains on Monday, with both the larger peers, Sensex and Nifty, closing higher by over 0.40% each. The start of the day was fabulous, aided by the Reserve Bank of India (RBI) Governor Shaktikanta Das' statement that the revised guidelines to deal with stressed assets will sustain improvement in credit culture that have been ushered in by the efforts of the Government and the Reserve Bank so far and will go a long way in promoting a strong and resilient financial system in India. Traders also took support with a report that foreign investors have pumped in a net amount of Rs 7,095 crore into the Indian capital markets during the first week of June in anticipation of continued policy reforms.

On the global front, European markets were trading in green, even though the UK economy contracted for the second straight month in April on weak manufacturing. The data from the Office for National Statistics showed that gross domestic product fell 0.4 percent on a monthly basis after easing 0.1 percent in March. Asian markets ended in green, after Chinese trade data topped forecasts, helping ease investor concerns surrounding slowing global growth. China's exports grew 1.1 percent last month after falling 2.7 percent in April. Imports, however, plummeted 8.5 percent after rising 4.0 percent in April given softening external conditions.
