#### Market Commentary

Indian equity indices commenced the week on an optimistic note as the benchmarks showcased an energetic performance on Monday and settled with gains of around three fourth of a percent. Investors continued to build hefty positions across the board as sentiments got a boost after Finance Minister Arun Jaitley said India will launch a new national Goods and Services Tax (GST) as planned on July 1 and gave return filing breather to India Inc for two months. Adding optimism among investors, the industry body Confederation of Indian Industry (CII) said India Inc is ready for the implementation of the GST from July 1, as the new indirect tax regime will contribute significantly towards economic growth, job creation and exports expansion. Besides, firm global cues, after French President Emmanuel Macron's party won a parliamentary majority at the weekend, too added to the optimistic sentiments.

On the global front, Asian equity markets ended mostly higher on Monday as weaker than expected US housing and consumer sentiment data tempered expectations for a spate of interest rate increases this year. Chinese shares ended higher as liquidity conditions have eased and data showed the property market continued to stabilize in May after stricter measures to curb demand. Further, Japanese shares hit twoweek highs amid yen weakness as data showed Japan saw a surprise trade deficit in May because of a rise in imports.

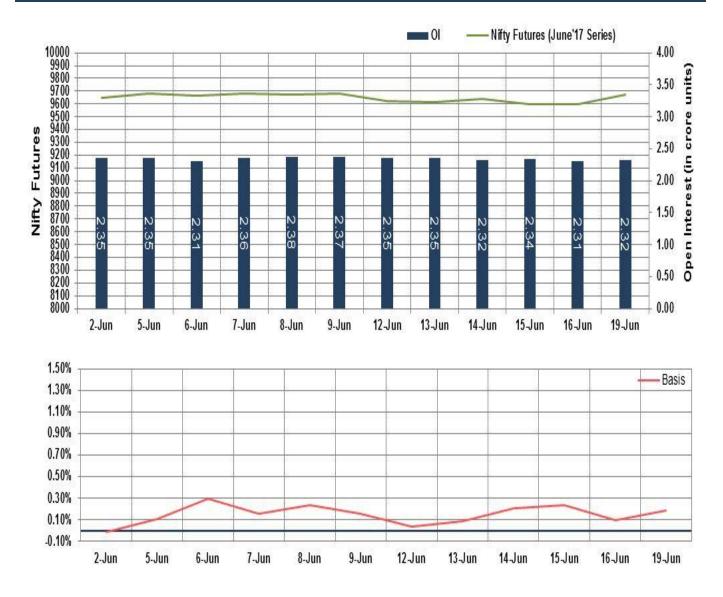

### Market Turnover & FII Derivative Data
