Market Commentary

Buying in final hour of trade helped markets to end the session with gain of around half a percent, with frontline gauges recapturing their crucial 32,000 (Sensex) and 9,900 (Nifty) bastions. Markets started the day on optimistic note with traders taking some encouragement with an Asian Development Bank's (ADB) supplement report stating that India is expected to achieve the projected growth rate of 7.4% in 2017 and further up 7.6% next year on strong consumption demand, with South Asia leading the growth chart in Asia and the Pacific. Upbeat earnings from market heavyweight Reliance Industries too aided sentiments with company reporting a consolidated quarterly net profit increase of 28%, helped by higher-than-expected refining and petrochemicals margins and a one-time gain. Net profit rose to Rs 9,079 crore in the guarter ended June from Rs 7,077 crore a year earlier. Revenue rose to Rs 92,661 crore, an increase of 25.5% from Rs 73,829 crore a year ago.

On the global front, European markets were trading mostly in red in early deals, as a fresh flow of corporate earnings failed to change the mood of the previous session, dragged down by the European Central Bank's policy meeting, which pushed the euro close to a two-year high. Asian markets ended mostly in negative terrain on Friday, with Hong Kong's Hang Seng Index closing in red.
