Market Commentary

Indian equity benchmarks ended the choppy day of trade with marginal gains, where frontline gauges, despite some hiccups, managed to keep their head above water, as traders opted for bargain hunting after registering losses in the preceding two trading sessions. Markets traded mostly in green through the session with traders taking support with DIPP's report that FDI flow into the country grew 37% to \$10.4 billion during the first quarter of this financial year. India received \$7.59 billion FDI during April-June 2016-17. Some support also came with foreign brokerage firm's report that India is expected to see a modest recovery in GDP growth at 6.6% for the April-June quarter as compared to 6.1% in January-March, which was affected by demonetization. Meanwhile, Prime Minister Narendra Modi is slated to interact with 200 CEOs to attain their views and suggestions to carry forward the 'New India' initiative.

However, gains remained capped as some cautiousness crept in on report that leading stock exchange BSE announced on Monday that it will 'compulsorily' delist 200 firms this week and bar their promoters from the markets for 10 years as trading in these shares have remained suspended for over a decade. All these companies will be delisted from August 23.
