#### Market Commentary

Indian equity benchmarks ended the Wednesday's trade in red terrain and key gauges went home with around half a percent cut amid feeble global cues. After a cautious start, markets traded choppy for most part of the day, as there was some cautiousness in the India Inc with the Insolvency and Bankruptcy Board of India (IBBI) tightening the due diligence framework on resolution applicants, including promoters. Corporate resolution applicants including promoters will now be put through a stringent test as regards their credibility and creditworthiness before a resolution plan is approved by the committee of creditors. Selling, which emerged in last leg of trade, mainly dragged the benchmarks lower to end near intraday lows, though losses remained restricted near their support levels of 10,300 (Nifty) and 33,200 (Sensex). Sentiments also remained down beat on a private survey highlighting that India has slipped to the 7th position this quarter in business optimism ranking.

Weakness in European counters too dampened sentiments, with CAC, DAX and FTSE trading lower in early deals amid corporate earnings reports. The Bank of England said that British companies are likely to keep on increasing investment at a modest pace over the next year before weaker increases over the following two years. Asian markets ended mostly in red, as investors remained cautious, in an address to the South Korean parliament, Trump addressed tensions with North Korea, saying that it has interpreted America's past restraint as weakness.
