#### Market Commentary

Indian equity benchmarks managed to keep their head above water on Monday and went home with slender gains. Markets traded choppy throughout the session, as street digested Moody's India upgrade and focused on Gujarat Assembly elections that will take place next month. The street took note of US-based rating agency Moody's report that lower taxes and higher public expenditure could widen budget deficit in 2017-18, but steps taken by the government to broaden the tax base and improve spending efficiency would help in narrowing it going forward. Though, market participants took some comfort with the IMF data, which forms part of the latest World Economic Outlook report of the International Monetary Fund, stating that India has moved up one position to 126th in terms of per capita GDP of countries, though it still ranked lower than all its BRICS peers. Some support also came with SBI research report stating that India might not have to wait for 13 long years for next sovereign upgrade by a rating agency, as the government isfirm and committed to adhere with the fiscal consolidation path.

Traders also took some solace with Finance Secretary Hasmukh Adhia's statement that the latest changes have resolved nearly 90% of problems and discontentment related to the indirect tax regime. Separately, Department of Economic Affairs Secretary Subhash Chandra Garg has said that he hopes the growth rate to touch 7% by the end of fiscal year.
