#### Market Commentary

Thursday turned out to be a fabulous day of trade of Indian equity benchmarks, with frontline gauges recapturing their crucial 10,500 (Nifty) and 33,900 (Sensex) levels amid firm global cues. After a positive start, there appeared not even an iota of profit booking in the session with benchmarks fervently gaining from strength to strength to end near intraday highs, as investors continued hunt for fundamentally strong stocks. Sentiments remained upbeat with NITI Aayog's expectation that the first strategic disinvestment of Central Public Sector Enterprises will be conducted within the current financial year. It said that the process of divestment is being carried out by DIPAM (Department of Investment and Public Asset Management) and the first transactions are expected in the current financial year after a long gap of 14 years. Some support also came with the Union Cabinet approving the revised model concession agreement for public private partnership projects in major ports. The amendments were made in the MCA to attract more investments in the port sector and are expected to clear the hurdles created by some of the provisions in the current model concession agreement.

Firm opening in European counters too aided sentiments, as investors reacted to robust economic data from both sides of the Atlantic, while oil prices hovered around two-and-a-half year highs amid unrest in Iran. Asian markets ended mostly in green with Japanese manufacturing activity expanding at the fastest pace in almost four years in December as new orders accelerated.
