Market Commentary

Tuesday turned out to be a daunting day of trade for Indian equity benchmarks, with frontline gauges settling below their crucial 36,100 (Sensex) and 11,050 (Nifty) levels. Markets kick-started the session on pessimistic note, as traders remained concerned over valuations after recent strong gains. Traders also remained on sidelines ahead of upcoming budget, as this will be the last full year budget of the government before next year's Lok Sabha election. Afterwards, markets traded in a tight band throughout the session, as sentiments remained dampened with Chief Economic Adviser Arvind Subramanian's statement that the scope for the Reserve Bank of India (RBI) to lower interest rate may be limited with growth picking up and inflation hardening.

Weak opening in European markets too dampened sentiments as global markets took a risk-averse turn, with cyclical sectors including mining and financials suffering the sharpest losses. Gross Domestic Product (GDP) in the euro zone rose as expected in the fourth quarter. The GDP rose a seasonally adjusted 0.6% in the final three months of 2017. Asian markets ended in red, as oil extended declines and US bond yields rose to their highest levels in nearly four years.
