Market Commentary

Extending their winning streak to seventh straight session, Indian equity benchmarks closed the trading session with strong gains on Tuesday. The start of the day was positive, aided by reports that the net direct tax collection figure has crossed the Rs 10 lakh crore mark as on March 16, helped by the fourth and final installment of tax payment. The entire advance tax data from across the country has not come yet. The net direct tax collection during April-January of this fiscal stood at Rs 7.89 lakh crore as against Rs 12 lakh crore targeted for the entire fiscal of 2018-19. However, the trade remained thin for the most part of the session, ahead of the outcome of the 34th GST Council meeting. Traders were cautious with Niti Aayog CEO Amitabh Kant's statement that India cannot achieve 9-10% Gross Domestic Product (GDP) growth without revolution in the farm sector. He said there is a need to boost investment in the agriculture sector as well as to introduce new technology and market reforms.

On the global front, European markets were trading in green, even though UK households' assessment of their financial well-being fell to the lowest level in thirteen months in March. The survey data from the IHS Markit showed that the IHS Markit Household Finance Index, or HFI, fell to 43.3 in March from 43.4 in February, marking the lowest reading since February 2018. However, Asian markets ended mostly in red, as investors remained on sidelines ahead of the US Federal Reserve policy meeting, and policy decisions by some regional central banks.
