#### Market Commentary

Bulls roared back over Dalal Street on Thursday, with Sensex & Nifty gaining over 630 & 175 points, respectively, after reports said the government was looking to roll-back the recently imposed higher tax on the foreign portfolio investors (FPIs). After a firm start of the day, key indices remained in green for the most part of the session, as the India Meteorological Department showed that India received 28% more rainfall than the 50-year average in the week to August 7, easing concerns of drought. Monsoon rains are crucial for farm output & economic growth, as agriculture forms about 15% of India's \$2.5-trillion economy. The street overlooked Reserve Bank of India's (RBI) report that consumer confidence declined in July as reflected in the current situation index; the future expectations index fell by about 4 points.

Markets extended gains in the last leg of the trade, as RBI announced two key measures to help non-bank financial companies (NBFCs) which are facing a severe liquidity squeeze. The first is harmonisation of single counterparty exposure limit for banks' exposure to single NBFCs with the general single counterparty exposure limit. The central bank has decided to raise a bank's exposure limit to a single NBFC to 20 per cent of tier-I capital of the bank. The second initiative deals with credit to the priority sector. The street also took a note of EEPC India chairman, Ravi Sehgal's statement that the central bank should ensure easy credit disbursal to exporters, especially in the MSME sector.
