Market Commentary

Indian equity benchmarks failed to hold their gains on Thursday to end in red terrain. After a firm start, markets managed to trade above neutral lines for the most part of the session, as Union minister Ravi Shankar Prasad termed the low Gross Domestic Product growth as a 'temporary phenomenon', and expressed confidence that things will improve in future as the fundamentals of Indian economy are strong. He added that the government is taking all necessary steps to boost the economy. Adding some comfort, data from the India Meteorological Department showed India received 38% more rainfall than the 50-year average in the week to September 11, with central India receiving 142% more rain.

However, in the last hours of the trade, indices slipped in negative, as Organization of the Petroleum Exporting Countries (OPEC) said that it seems India's economic slowdown could continue for the next two to three years as the economy faces serious structural reform, which will hurt consumer demand and manufacturing. Some worries also came with rating agency Moody's statement that Indian non-banking financial companies (NBFCs) and housing finance companies (HFCs) are pulling back on loan against property (LAP) lending to micro, small and medium sized enterprises (MSMEs) because of the funding squeeze caused by the liquidity crisis in the country's financial sector.
