### MARKET COMMENTARY

Indian equity benchmarks ended lower on Wednesday. The start of the day was on a negative note, as Fitch Ratings kept India's sovereign rating unchanged at 'BBB-' with a negative outlook, and said that the rating balances a still-strong medium-term growth outlook and external resilience from solid foreign-reserve buffers against high public debt, a weak financial sector and some lagging structural issues. It said the country's rapid economic recovery from the Covid-19 pandemic and easing financial sector pressures are narrowing risks to the medium-term growth outlook.

Key indices were volatile during the trading session. Traders got cautious, as Sebi proposed putting a cap on IPO proceeds earmarked for making future acquisitions without identifying specific targets and monitoring funds reserved for general corporate purposes. In the last hour of the trade, markets added more losses to end near their intraday low points. Weakness prevailed in the markets as foreign portfolio investors (FPIs) sold shares worth Rs 560.67 crore, in the Indian equity market on 16 November, provisional data showed.

On the global front, European markets were trading mostly in green as some positive earnings reports helped overshadow worries that soaring natural gas prices were feeding into inflationary pressures. Asian markets settled mixed on Wednesday, after Japan posted a merchandise trade deficit of 67.370 billion yen in October, the Ministry of Finance said. That exceeded expectations for a shortfall of 310 billion following the downwardly revised 624.1 billion yen deficit in September (originally a deficit of 622.8 billion yen).
