

MORNING MANTRA

Daily Derivatives & Market Report

JUNE 28, 2022

Indian equity benchmarks ended flat with a positive bias on Tuesday. After a negative start, markets remained lower for the most part of the trading session, amid persistent foreign fund outflows. As per exchange data, foreign institutional investors (FIIs) remained net sellers in the capital market, as they sold shares worth Rs 1,278.42 crore on Monday. Firm crude oil prices in the international market also put pressure on equities.

Domestic sentiments remained negative, as Crisil in its latest report has said that a fourth of Indian micro, small and medium enterprises (MSMEs) have lost 3 per cent or more of their respective market share to big corporations during the Covid pandemic. It analysed MSMEs from 69 sectors and 147 clusters having a revenue of Rs 47 lakh crore or a fourth of India's GDP to arrive at the details on how the small businesses fared during the pandemic.

However, in the last hour of the trade, key indices cut all of their losses to turn positive, after Union Minister for MSME Narayan Rane has said under the able leadership of Prime Minister Shri Narendra Modi MSME Ministry is committed to achieve the goals of holistic development and self-reliance of MSMEs. Adding some relief, the electronics and IT ministry has approved a total of 314 applications with proposed investments of Rs 86,824 crore under a modified special incentive package scheme till May 31, 2022.

Traders got some support, as a report by the government think-tank NITI Aayog estimates India's gig economy could employ 2.35 crore people by FY30, representing a three-and-a-half-times increase over 10 years. The gig economy employed around 68 lakh people in FY20. Meanwhile, India and the European Union (EU) resumed negotiations, after a gap of over eight years, for a comprehensive free trade agreement, a move aimed at strengthening economic ties between the two regions.

On the global front, European markets were trading higher. Asian markets settled mostly higher on Tuesday, even after Hong Kong's merchandise exports declined, while imports rose for the second straight month in May. The data from the Census and Statistics Department showed that exports fell 1.4 percent year-on-year in May, after a 1.1 percent increase in April. Imports increased 1.3 percent annually in May, after a 2.1 percent growth in the previous month.
