

MORNING MANTRA

Daily Derivatives & Market Report

JULY 13, 2022

Indian equity benchmarks ended with losses on Wednesday. After a positive start, markets remained higher in the first half of trading session, as data by the National Statistical Office (NSO) showed that India's industrial production rose 19.6 per cent in May 2022. As per the Index of Industrial Production (IIP), the manufacturing sector's output grew 20.6 per cent in May 2022. Also, retail inflation dropped marginally to 7.01 per cent in June mainly due to slight easing in prices of vegetables and pulses.

However, in the second half of the trading session, key indices cut all of their gains and turned negative, on the back of negative cues from European markets. Gains got cut over the Dalal Street, amid a private report stating that the country's current account deficit is likely to touch USD 105 billion or 3 per cent of the GDP this fiscal, mainly due to continuously widening trade deficit.

Besides, the International Monetary Fund warned that avoiding recession in the United States will be 'increasingly challenging' as it again cut its 2022 U.S. growth forecast to 2.3% from 2.9% in late June as recent data showed weakening consumer spending. The Fund also cut its 2023 real GDP growth forecast to 1.0% from 1.7% on June 24, when it met with U.S. officials for an annual assessment of U.S. economic policies.

On the global front, European markets were trading lower. Asian markets ended mixed, even after China bank lending grew more-than-expected in June on borrowing demand from corporates after the easing of pandemic-related restrictions. The data from the People's Bank of China revealed that banks extended CNY 2.8 trillion in new yuan loans in June. Street had forecast lending to rise to CNY 2.4 trillion from CNY 1.89 trillion in May.

Back home, hotel industry stocks remained in focus, as rating agency ICRA in its latest report has said that the hotel industry's revenues and margins are expected to return to pre-COVID levels in 2022-23 despite the potential impact on demand in case of further waves of the pandemic. It said domestic leisure and transient travel will be the main demand drivers, although there will be a gradual recovery in business travel and foreign tourist arrivals (FTAs).
