

MORNING MANTRA

Daily Derivatives & Market Report

SEP 27, 2022

Indian equity benchmarks finished volatile day of trade on flat note, as investors awaited the outcome of a key meeting of the RBI's Monetary Policy Committee due this week. Markets made positive start, as traders took support with Chief Economic Advisor (CEA) V Anantha Nageswaran's statement that the Indian economy is showing resilience and on the path to recovery. He added that private demand and the services sector are doing better than expected. Soon markets turned volatile, as some cautiousness came with Finance minister Nirmala Sitharaman's statement that 'some people do also speak that a falling rupee also helps exports. Whether it does or doesn't, theoretically it may, but in today's condition, with recession outside and demand not really as adequately as it should be, even a fall in the rupee may or may not help our exports. We are conscious about these basic facts'.

In afternoon trade, key indices maintained their gains above neutral line. Traders took some solace after Organisation for Economic Cooperation and Development (OECD) in its latest Interim Economic Outlook has retained the India's Gross Domestic Product (GDP) growth projection at 6.9 per cent for the current financial year (FY23) despite the global economy losing momentum in wake of the Russia-Ukraine war. However, in last leg of trade, markets were oscillating between gains and losses, as global growth concerns remained on investors' minds. Traders took note of report that government will extend again the validity of the current foreign trade policy (FTP), which provides a road map for boosting external commerce in goods and services, by six months through March 31, 2023.

On the global front, European markets were trading mostly in green as investor sentiment showed signs of tentative recovery following a sharp sell-off in US and Asian equities. Back home, cement stocks remained in limelight after rating agency Crisil in its latest report has said that the operating profitability of cement companies is set to fall by 15 per cent year-on-year to Rs 900-925 per tonne this fiscal (FY23), adding to the pain of a 9 per cent decline last fiscal, as an increase in realisations will not be enough to offset the increase in prices of coal, petcoke and diesel that has pushed the average cost of production higher.
