## MARKET COMMENTARY

## 

Heavy sell off in late afternoon session forced local equities to end Thursday's session near day's low levels. Investors preferred to book their profit ahead of weekly F\&O expiry. In first half of the session, markets maintained their gains with report that Federal Reserve will trim interest rates earlier in 2024. All the sectoral indices on the BSE ended in red. The broader indices, the BSE Mid cap index and Small cap index ended with cut of over three percent each.

Markets made gap-up opening and remained higher tracking overnight gains on Wall Street as well as firm cues from Asian peers. Traders took encouragement as the finance ministry said tax reforms, a sharp hike in capital spending without weakening fiscal discipline and robust public digital infrastructure are among a raft of steps initiated by the Modi government that would help India emerge as a $\$ 5$-trillion economy. Meanwhile, international Monetary Fund's Executive Board said Indian economy is likely to log 6.3\% growth in FY24 and FY25 on the back of macroeconomic and financial stability. In afternoon session, markets trimmed some of their gains. Provisional data from the National Stock Exchange (NSE) showed that foreign institutional investors (FIls) net sold shares worth Rs 601.52 crore on December 19. Further, indices failed to protect their gains and entered into red territory as investors sold their riskier stocks. Traders overlooked report that Parliament has given its approval for a net additional spending of Rs $58,378.21$ crore in the current fiscal ending March 2024 (FY24), with a large chunk allocated to MGNREGA and fertiliser subsidies. The gross additional spending would be more than Rs 1.29 lakh crore, out of which Rs 70,968 crore would be matched by savings and receipts. In last leg of trade, markets witnessed heavy selling pressure with Nifty and Sensex settling below the psychological 21,200 and 70,600 levels, respectively.

On the global front, European markets were trading mostly in red dragged by a slide in Belgian pharmaceutical company argenx, even as the telecom sector got a boost from Telefonica shares after the Spanish government unveiled plans to buy a stake. Asian markets ended mostly in green following positive cues from US markets overnight, as traders reacted to the continued optimism over the outlook for interest rates following the US Fed's monetary policy announcement last week. Back home, credit rating agency ICRA in its latest report has said that the domestic air passenger traffic is expected to grow by $8-13 \%$ in FY24, thus reaching 150-155 million, surpassing the preCovid levels of 141.2 million seen in FY20.
